Free training in intellectual disability mental health

Would you like to gain knowledge, skills and confidence to improve the mental health care of people with an intellectual disability?

People with an intellectual disability have a higher rate of mental disorders than the general population, but have less access to mental health care.

UNSW is providing free online training in intellectual disability mental health, in partnership with Ageing Disability and Home Care, NSW Health and the Health Education and Training Institute.

You can work through the training at your own pace.

http://www.idhealtheducation.edu.au

Topics include:

- Introduction to Intellectual Disability
- Living with Intellectual Disability
- Changing Perspectives of Intellectual Disability
- Introduction to Mental Disorders in Intellectual Disability
- Communication
- Assessment of Mental Disorders in Intellectual Disability
- Management of Mental Disorders in Intellectual Disability
- Legal and Ethical Practice
- Challenging behaviour
